SKILLS

- Programming Languages - C++, Python, C, JavaScript, NoSQL, HTML, CSS
- Technologies - React, Express, MongoDB, Node.js, Bootstrap, Tailwind , Next.js
- Tools - Git, GitHub, Illustrator, Figma

WORK EXPERIENCE

IT Consortium

Software developer Intern

August 2024 - September 2024

- I held the position of Frontend Developer Intern at IT Consortium, where I expanded my skill set and gained valuable experience. During my tenure, I acquired proficiency in Figma, enhancing my UI/UX design capabilities. Additionally, I learned Python programming fundamentals, broadening my technical expertise. One of my notable accomplishments was the successful development of a Timebox project, which showcased my ability to apply theoretical knowledge to practical applications.

My Apps Lab

Web developer Intern

July 2024 - December 2024

- I successfully completed a remote Web Developer Internship, where I gained valuable hands-on experience in the MERN stack. As a key member of the team, I was responsible for collaborative full-stack development on various projects, leading team meetings to discuss project progress and goals. I also honed my problem-solving skills by troubleshooting and resolving technical issues. This remote internship provided me with invaluable experience in web development, teamwork, and communication, ultimately preparing me for a successful career in the tech industry.

PROJECT

Crivre

June 2024

- Crivre is a comprehensive online platform designed specifically for university students, providing a one-stop destination for accessing vital information about their institution. The platform offers a range of features, including a centralized hub for university news, keeping students informed about campus events and announcements.

Medplus

January 2024

- I led the conception and development of an innovative e-commerce platform tailored specifically for the medical supplies industry. This project enabled vendors to list their products efficiently while providing users with a seamless purchasing experience. Key features included secure payment processing, real-time inventory management, and personalized user accounts

EDUCATION

University Of Professional Studies, Accra

Bachelor Of Science In Information Technology Management - 2.7 GPA

August 2025

- I have enriched my skill set through a variety of courses and activities, I completed courses such as operating systems , distributed systems and programming languages such as JavaScript and Python, as well as workshops in cybersecurity and network administration
